The Baobab Network Report For ZENMONDO Members [Teaser Version]

November 28th, 2023

# Hello there,

In this week's edition, we go west for a Francophone HealthTech announcement, and we spotlight a South African AI tool.

# Waspito secures \$2.5 million seed extension

<u>Waspito</u>, a Cameroonian HealthTech, has secured \$2.5 million USD in a seed extension round. Participants in the round included <u>Newtown Partners</u>, <u>Saviu Ventures</u>, <u>AAIC</u> <u>Investment</u>, <u>Axian Ventures</u>, and <u>Health54</u>. Founded in 2020 by <u>Jean Lobe Lobe</u>, Waspito enables patients to consult with doctors over video. The funding will support expansion of a hybrid model and mini clinics in Francophone Africa. New potential markets include Côte d'Ivoire, Senegal and Gabon.

Previously, Waspito has raised \$2.7 million USD in a seed round announced in March 2022. The previous round included Launch Africa, Orange Ventures, and Plug and Play, alongside recurring investors like Newton Partners and Saviu Ventures.

#### Chart of the week

In case you missed it, this week's chart maps Africa's VC landscape from Q3 2023. Last quarter, we tracked 43 deals secured by African technology companies. Majority of the deals came from the financial services sector with 15 FinTechs securing funding during this period.

### Start-up spotlight

We continue our pledge to support more female-led start-ups by featuring them in the Startup Spotlight segment in every edition of this newsletter. Know an African female-founder that you want to see in the spotlight? <u>Let us know</u>.

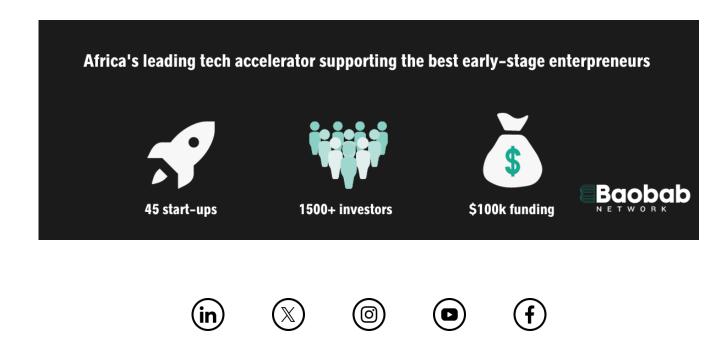

<u>MobileGPT</u> is a South African, AIpowered personal assistant.

Founded in March 2023 by <u>Bertha</u> <u>Kgokong</u>, MobileGPT uses a WhatsApp application that integrates the capabilities of the GPT-4 engine to provide users with a personal AI assistant on the go.

Recently, MobileGPT was selected alongside 9 other female founders in South Africa to participate in the second cohort of the GrindstoneX growth engineering programme, run in partnership with Naspers Labs.
